

Cosa

sono

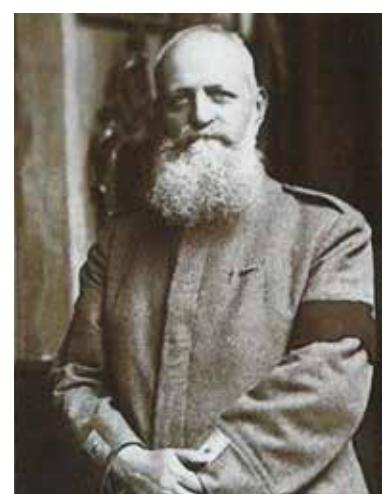

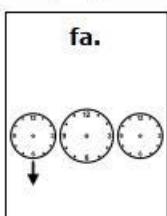

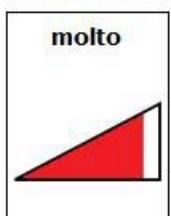

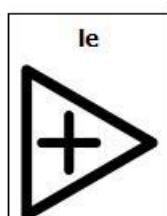

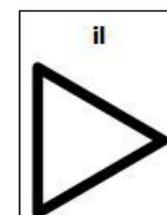

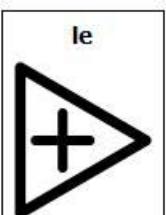

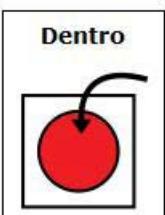

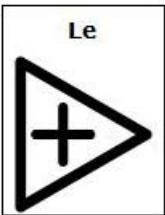

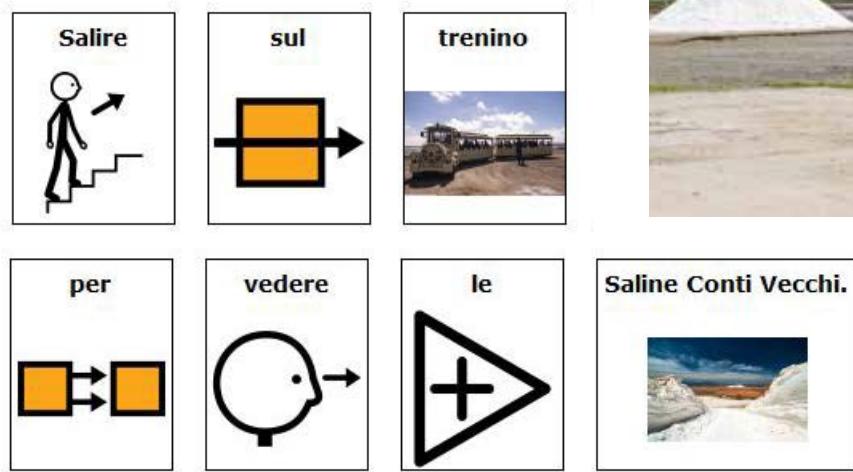

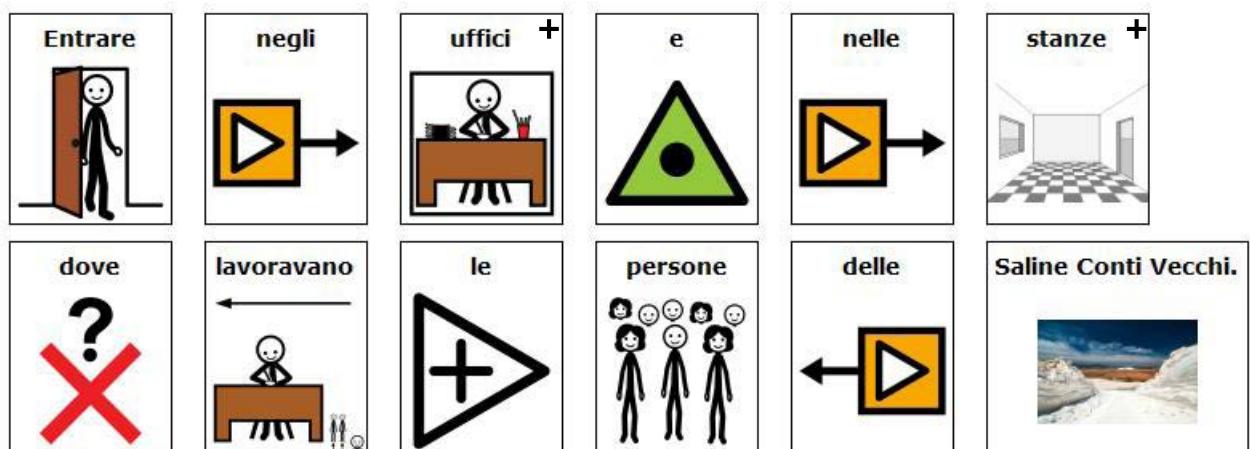

le

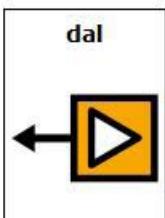

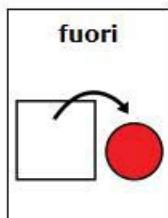

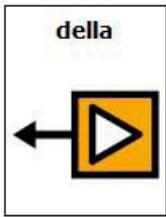

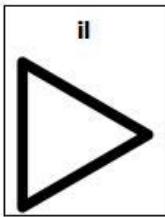

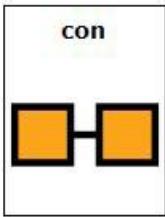

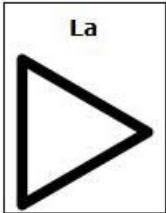

Saline Conti Vecchi

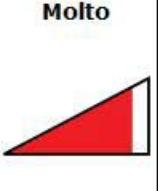

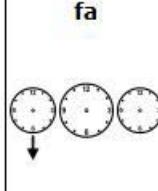

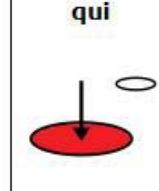

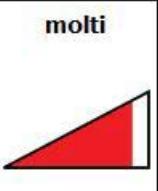

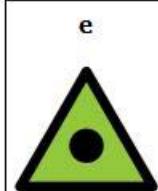

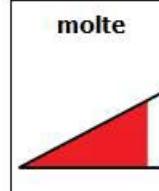

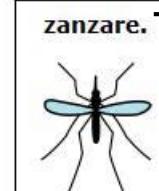

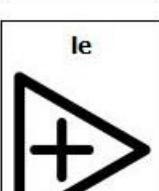

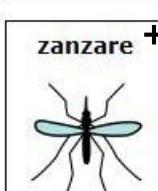

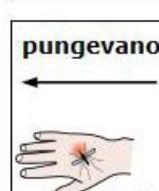

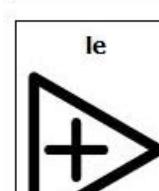

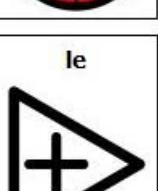

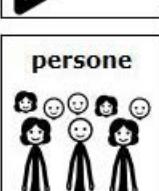

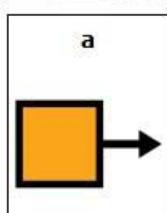

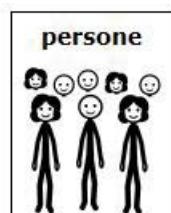

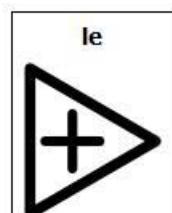

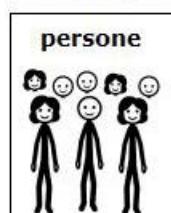

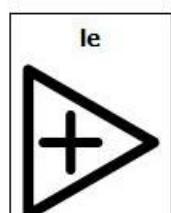

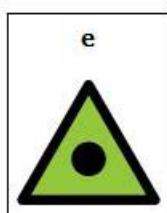

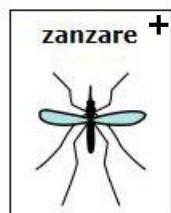

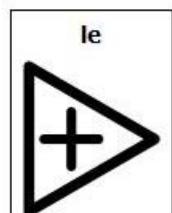

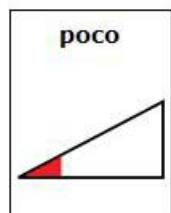

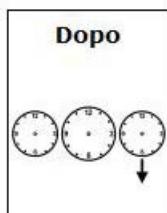

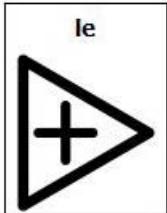

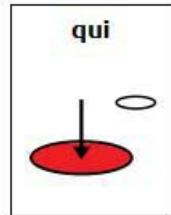

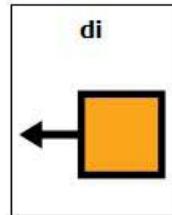

storia delle Saline Conti Vecchi

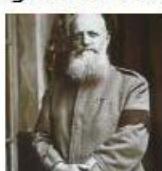

Molto	tempo	fa	qui	c'erano
				
molti	acquitrini +	e	molte	zanzare. +
				
Quando	le	zanzare +	pungevano	le
				
le	persone	si ammalavano.		persone,
				

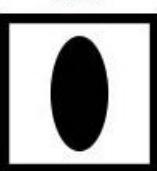

Luigi Conti Vecchi

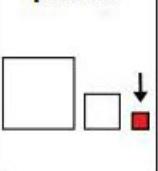

ha costruito

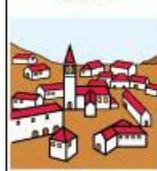

una

piccola

città

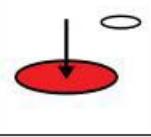

intorno alle

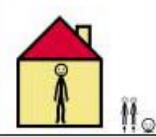

Saline Conti Vecchi.

Qui

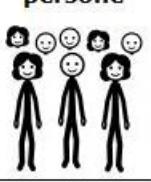

vivevano

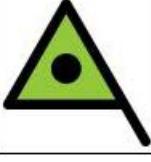

le

persone

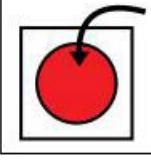

che

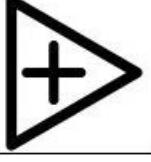

lavoravano

dentro

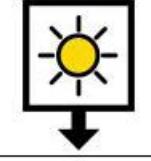

le

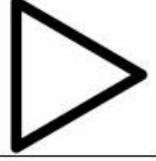

Saline Conti Vecchi.

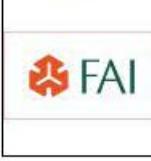

Oggi

il

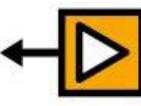

FAI

si prende cura

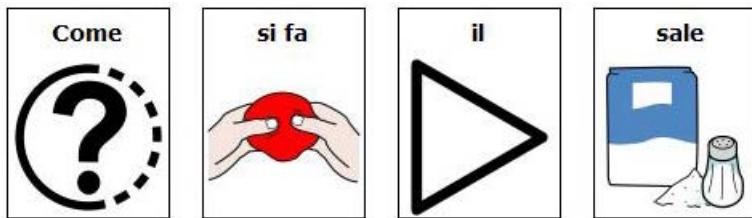

delle

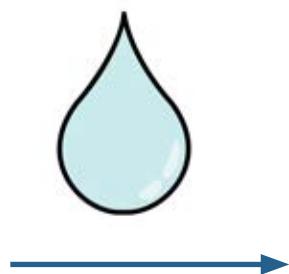

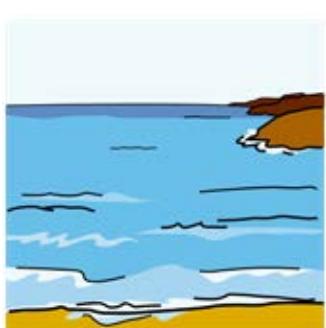

Saline Conti Vecchi.

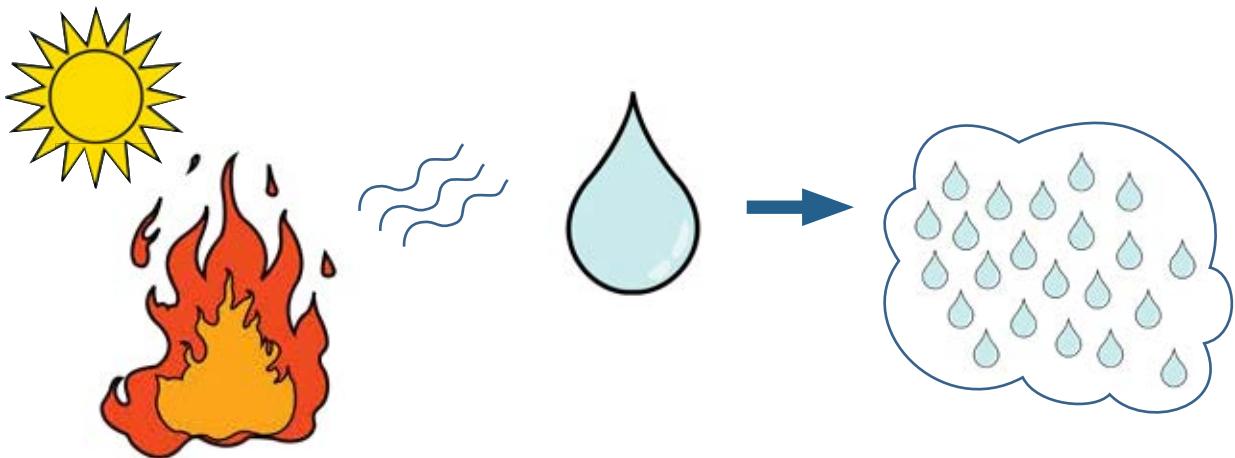

1

I 	salinieri 	sono 	le 	persone
che 	fanno 	il 	sale. 	

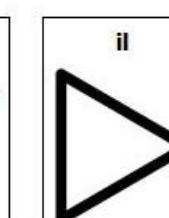

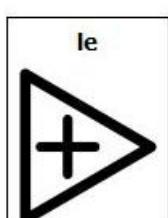

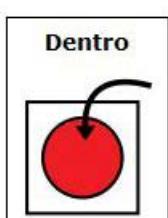

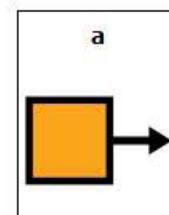

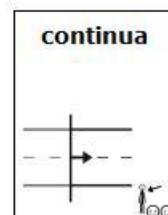

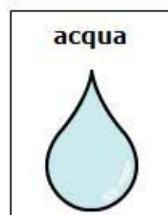

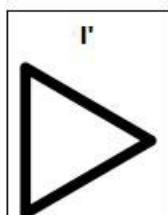

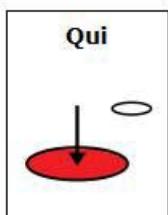

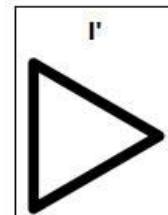

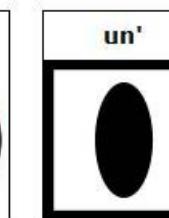

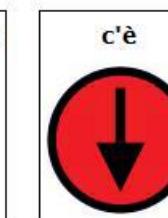

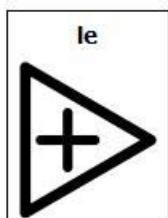

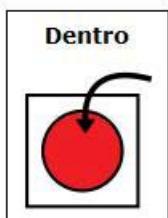

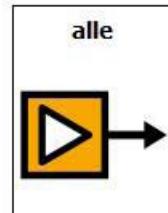

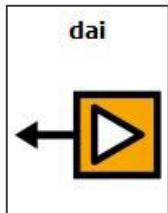

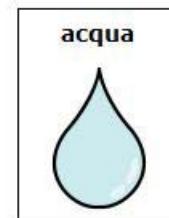

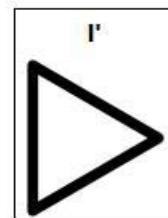

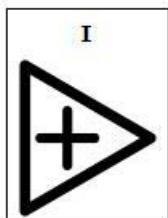

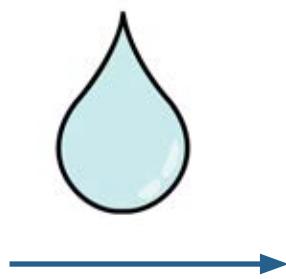

I 	salinieri 	spostano 	l' 	acqua del mare
nei 	bacini evaporanti. 			

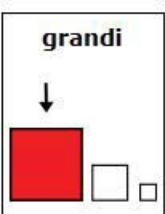

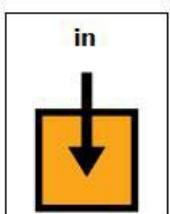

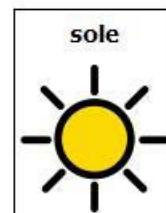

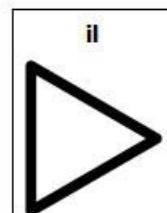

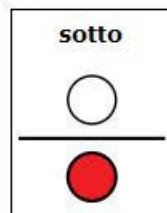

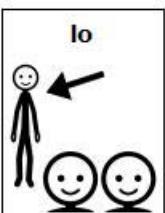

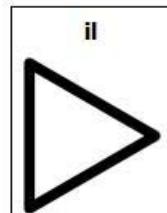

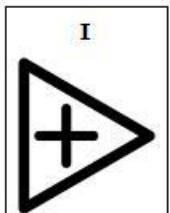

Dentro 	i 	bacini evaporanti 	il 	sole 	
e 	il 	caldo 			
fanno evaporare 	una parte 	dell' 	acqua. 		
La 	parte 	dell' 	acqua 		
che 	rimane 	nei 	bacini evaporanti 		
è 	molto 	salata 	perché 	il 	sale
					non evapora.
